

AMENDMENTS TO THE SPECIFICATION

Please rewrite the full paragraph on Page 8, Lines 16-24, of the specification as follows:

“As described above, the image sensing radiation detection pixels of m columns are divided into nine groups. The image sensing radiation detection pixels of ~~m rows~~ n rows are divided into eight groups. In this case, the m (columns) \times n (rows) image sensing radiation detection pixels are divided into 72 pixel regions 4 in accordance with the division. Image sensing radiation detection pixel belonging to one pixel region 4 are connected to the same read TCP and driving TCP.”
